

I understand that there is the possibility that an LPFM station could take our favorite radio station off the air in our area.

K-LOVE is one of only two Christian radio stations we can receive here, and in my opinion it is far superior to our other station. I believe that is because K-LOVE has national resources to bring us better programming and content.

In addition to premium content, K-LOVE provides local announcements to area non-profit organizations - a great resource for both the organizations and the residents in our area.

K-LOVE is a listener-supported station and as such provides further evidence that it is a station that is valued by the listening public.

Please allow it to stay on the air.

Thank you for your time.
